Good morning Professor Lewis.

I had you last summer as a professor for the Data Visualization course CPSC 53000. I am currently working on my capstone project in BIOL 59000 and would love for you to be a reviewer of my project using data science to analyze gene expression data from the Gene Expression Omnibus (GEO) on UL and non-UL tissue samples from otherwise healthy donors.

If you accept to be a reviewer of my work, you would need to agree to looking over my oral presentation of the project seven weeks from now and the final report. Please let me know if you would be available to be my mentor reviewer.

Best regards,

Janis Corona

Hi Janis

It would be my pleasure to be a reviewer for your project.

Thank you so much! This means a great deal to me. I look forward to getting any feedback from you.

Janis
